

Probe Reserve

Complete coverage for your ultrasound probes

Working around ultrasound probe failures can be very challenging. Depending on the number of probes you have at your site, your equipment options can change daily if some equipment is out for service. Wouldn't it be nice to have a reserve of probes that you can choose from without having to worry about repair costs and availability?

GE Healthcare has a new offering for you. Our Probe Reserve program gives you complete coverage for your ultrasound probe replacements – at a fixed price. With Probe Reserve, you choose the number of probes you wish to cover, whether it be one or 100. With this offering, you can budget for your probe needs upfront and minimize unanticipated, and costly, expenditures.

Every day, your team places great demands on your ultrasound probes. Whether your site is a teaching institution with multiple equipment users, or a high-volume department, you can rest easy knowing that your probes are completely covered with Probe Reserve.

Our Probe Reserve offering includes:

- An exchange program where you decide how many probes to reserve. Additional replacement probes set at a discounted rate.
- 100 percent coverage on all general and specialty probe replacements as a result of normal wear and tear and accidents, including drops and strain reliefs.
- 100 percent coverage on all TEE probe replacements as a result of normal wear and tear and accidents, including patient-induced bite holes.
- Probe exchanges through our Probe Repair Center. All exchanged probes are OEM-tested and certified.
- Next-day parts delivery.
- A 15 percent discount for repair parts and labor, applicable during regular and overtime business hours.
- All exchanges come with a 90-day warranty.

Please note that coverage excludes damage caused by use that does not conform to OEM guidelines, including improper cleaning or the use of cleaning agents not specified by GE. The use of GE-approved bite guards and tip protectors is recommended.

Take the first steps

To start enjoying the benefits of Probe Reserve, contact your local GE service representative at 888-434-8666. They can provide you with all the information you need regarding the Probe Reserve offering and the ultrasound accessories you need to keep your system running optimally.
